--------------------	---------

Ask for prices on Sudan, Cane, German
Millet, and Forage Crops.

We buy soy beans, alfalfa, and popcorn,
also all kinds of farm seeds. Always pay
the top market price.

Young ALFALFA root with
nodules produced by
NITRAGIN inoculation.
NITRAGIN bacteria within
the nodules aid in produc-
ing higher protein hay, in-
creased yields, and richer
soil.

B. B. B.—Bartling's Best Brand . . .

is the premium grade. As to quality it
has no competition.

Because of the high price of Sweet
Clover the farmer should buy the pure
type, in event of a seed crop he will har-
vest either the white or the yellow.

Bartling's Pasture Mixture is a mixture
of red, alsike, alfalfa, and sweet clovers,
blue, rye and orchard grasses, red top, les-
pedeza and timothy.

Price, per pound 16c
